

Corneille Agrippa: Volume 2: Sa Vie et ses Oeuvres (Cambridge Library Collection - Spiritualism and Esoteric Knowledge) (French Edition)

Described by one modern scholar as a classic biography of Agrippa, Prosts two-volume work (1881-1882) charts the life of one of the most renowned humanists of Renaissance Europe. Heinrich Cornelius Agrippa von Nettesheim (1486-1535) was a prolific author, best known for two popular, significant, and contradictory books: *De occulta philosophia libri tres* and *De incertitudine et vanitate scientiarum et artium*. Auguste Prost (1817-1896) established his reputation as an antiquarian and a historian of the French city of Metz. Volume 2, covering the period 1520-1535, is organized around Agrippas travels and teaching across Europe. This volume also includes an appendix, which returns to a range of subjects touched on in the work as a whole, including Agrippas name, family life, and academic achievements and works. These volumes would greatly interest historians and historiographers of Agrippa and of Renaissance magic and the occult.
