

This is a new volume in the Dialects of English series - a series of short, accessible but authoritative books on specific dialect varieties, each written by a specialist or specialists who have done first-hand work on the variety concerned. This volume provides an overview of all aspects of north-eastern English and explores the phonetic, phonological and morphosyntactic features of the variety, including an analysis of lexical items. It focuses on the historical and linguistic aspects of the dialect and local culture, as well as investigating variation and change across generations. Designed with undergraduates and the general reader in mind, this book provides an excellent introduction to dialects of the region.

Political Parties: A Sociological Study of the Oligarchical Tendencies of Modern Democracy, The Ethics of Care: Personal, Political, and Global, The Flame That Is France, Observations sur l'Histoire de France, etc. (Large Print Edition) (French Edition), A New Voyage To Italy: With Curious Observations On Several Other Countries, As: Germany, Switzerland, Savoy, Geneva, Flanders, And Holland, Register Van Het Archief Van Groningen: Vervolg. 2 Vol, Volume 1...
